

## PROVEN SUCCESS

The Macro® Putting System is being embraced nationwide by PGA Golf Professionals and has been used extensively on the PGA Tour and the Champions Tour. The Macro Putter and Grip fully comply with the rules of golf, as stated in writing by the USGA. Learn the new putting system that has been used in the following Professional tournaments:

### PGA Tour

- Buick Open
- EDS Byron Nelson Championship
- Bank of America Colonial
- FedEx St. Jude Classic
- Buick Classic
- Booz Allen Classic
- Cialis Western Open
- US Bank Championship
- John Deere Classic

### Champions Tour

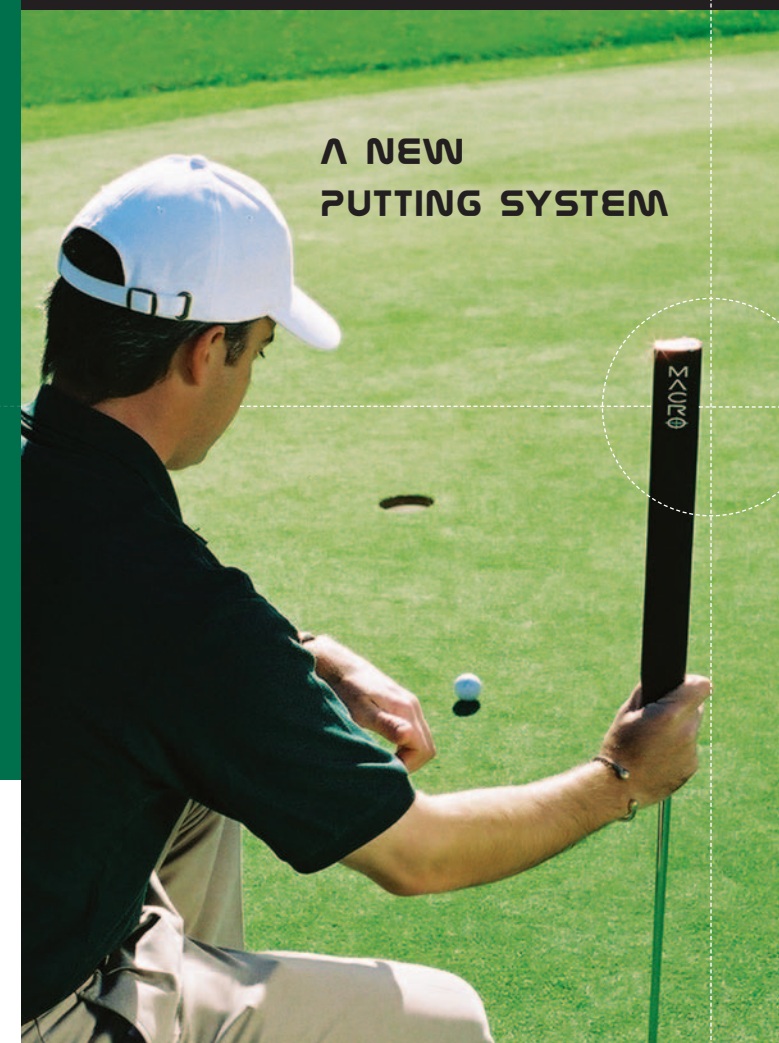

- U.S. Senior Open
- Ford Senior Players Championship
- Bayer Advantage Classic
- Bank of America Championship
- Commerce Bank Championship
- 3M Championship
- Greater Hickory Classic at Rock Barn
- Jeld-Wen Tradition
- Kroger Classic
- SAS Championship
- Constellation Energy Classic
- Administaff Small Business Classic
- SBC Championship
- National Qualifying Tournament

Take a look at the Macro Putter and see what all the excitement is about. Make your putting more accurate and more consistent today.

*A new, USGA conforming  
putter with a grip design  
that eliminates wrist break  
and keeps the putter head  
square throughout the  
putting stroke.*

## MACRO PUTTER GRIP

You've probably never seen anything like the Macro® Putter and Grip. Macro is not just a

another oversized putter grip. The patented Macro Putter Grip's unique reducing oval shape and forward shaft offset, when combined with the "split hands" grip of the Macro Putting System, make your wrist less flexible, preventing the wrist breakdown that occurs so frequently with other putters. By eliminating wrist breakdown you keep the putter head square throughout the putting stroke. The putter head then impacts the ball squarely to roll straight toward the intended target. When the putter head impacts the ball squarely every time... putting confidence and consistency improve.

**Key design advantages that contribute to the overwhelming success of the Macro Putting System:**

- Unique anatomical shape of the Macro Putter grip prevents wrist breakdown.
- Keeps the clubface square throughout the putting stroke increasing the Macro's Sweet Spot.
- Quality materials provide exceptional feel from the clubface to the hands.
- A higher lie angle and forward shaft offset combine to promote an unusually shallow putter head (pendulum) path.
- Grip alignment cross mark.

## MACRO PUTTING SYSTEM

### The Setup and Stroke

In order to get the most out of the Macro® Putting System you need to grip and stroke the putter a little differently than with a conventional putter. Once you get used to the new system, you will find your putting accuracy and consistency improve very quickly.

1. Sole the putter head by placing it flat on the ground in back of the ball.
2. Line up the putt by sighting down the aiming cross marks of the top of the Macro Grip and on top of the putter head.
3. Place the Macro Grip in the lifelines of the palms of both hands, comfortably separating the hands along the length of the Macro Grip. Position the Macro Grip in the plane of the forearms.
4. Draw the putter head straight back on the line of the putt, and then move the putter head with the dominant hand straight forward and through the ball.

## MACRO PUTTER HEAD

### WIDENS THE SWEET SPOT

The physical properties of the Macro® Putter head serve to enhance all of the functional design capabilities of the Macro Grip.

The weighting system employed in the two head designs widens the sweet spot both vertically and horizontally. The ball rolls off the face immediately in a smooth rotational pattern without digging in or hopping.

### Putter Head Facts

- Face balanced, heel/toe mirror image peri-weighted blade
- Center shafted with S/S non-stepped shaft
- Stainless Steel Plain or Poly Insert with CNC milled face
- Three highlighted parallel alignment lines on top surface
- Head with Face insert weighs 357 grams
- Head without Insert weighs 350 grams
- Machine Finished Polymer Insert
- Loft 3°/ lie 76

**"I'll put it this way. Immediately after I became familiar with and began using the Macro Putter two things happened: A lot fewer three putt greens, and a lot more low rounds."**
